ABSTRACT

This report examines residents released from facilities operated by Massachusetts Halfway Houses, Inc. (MHHI) during 1977 and 1978.

There were a total of 182 individuals released in 1977 and 139 released in 1978. In 1977, 25 individuals or 14% of the total release population escaped from MHHI facilities compared to 20 individuals or 14% in 1978. The completion rate for the 1977 sample was 75% compared to a rate of 71% in 1978.

INTRODUCTION

Massachusetts Halfway Houses, Inc. (MHHI) was originally founded in 1964. It founded Brooke House, the state's first residence for male ex-offenders from state and federal prisons. Since 1972, the Massachusetts Department of Correction has contracted with Massachusetts Halfway Houses, Inc. to provide beds for offenders in the system. Initially, these residents were only accepted on a post release basis. This present examination is only concerned with those individuals at MHHI facilities who were on a pre-release status, when released in 1977 and 1978.

This study is the first component of a three-part evaluation of residents released from MHHI on a pre-release basis during 1977 and 1978. This report includes information on the movement of population in and out of MHHI programs, program termination data, a statistical breakdown of background characteristics of program participants according to the MHHI facility that they participated in. The second component of the evaluation will be a comparison of commitment, background and criminal history variables between MHHI program completers and program non-completers. The final component of the evaluation will be a one year residivism follow-up for the 1977 and 1978 releasee samples.

SAMPLES

During 1977, there were 183 residents released from MHHI facilities and there were 141 released in 1978. Of the 1977 sample one individual was transferred to a hospital and was excluded from the sample, giving a final total of 182 residents released in 1977. Of the 1978 sample, one individual voluntarily returned to higher security and was excluded from the sample. One individual also died while in a MHHI program causing this person also to be excluded from the sample, yielding a final 1978 releasee sample of 139.

The breakdown of releasees in 1977 and 1978 by facility is as follows:

	1977		1978	
	<u>N</u>	<u>%</u>	<u>N</u>	<u>%</u>
577 House	38	(20)	34	(24)
699 House	65	(36)	51	(37)
Temporary Housing	12	(7)	6	(4)
Coolidge House	23	(13)	22	(16)
Brooke House	44	(24)	26	(19)
TOTAL	182	(100)	139	(100)

Releasee figures by sending institution are summarized in Table I for 1977 and Table II for 1978.

For comparative purposes the total sample for each year was divided into two groups - program completers and program non-completers. A program completer was defined as any resident who successfully completed his stay at MHHI and was released to the streets either by permit of the Parole Board or a certificate of discharge. Also, individuals who received a lateral transfer to a similar security institution are included. A program non-completer was defined as any resident who did not complete his stay at MHHI but was instead returned to his or her sending institution. When the total sample for each year was divided the results were as follows: for 1977 - 137 residents were program completers (completion rate 75%) and 45 residents were program non-completers (non-completion rate 25%); for 1978-98 residents were program completers (completion rate 71%) and 41 were non-completers (non-completion rate 29%).

There were several different reasons for a return to a higher security institution. Some examples are as follows: violation of house or department rules, inability to adjust to program, attempted or an actual escape, or being a major disciplinary problem while at the facility. The specific reasons for 1977 and 1978 are summarized in Table V.

DATA COLLECTION

Data collected for both sample years consisted of commitment, social background and criminal history variables. This material was collected from the Massachusetts Department of Correction Central Office files and from the computerized data base developed by the Correction and Parole Management Information System (CAPMIS) and was produced on the Massachusetts State College Computer Network (MSCCN).¹

A complete statistical breakdown by variable for each sample year is documented in Table VII and Table VIII. Also, a complete breakdown by variable for each Massachusetts Halfway House Institution is provided in Tables IX and X.

¹The author would like to acknowledge his appreciation for the careful work and assistance given in coding data for this report by John Harrington, Northeastern University student intern.
