## I. Introduction

This report presents a statistical description of offenders released to the street from Massachusetts correctional facilities with a pre-release component during 1987 with corresponding recidivism rates. This report presents statistics for three facilities which combine minimum and pre-release populations (MCI-Shirley, MCI-Lancaster and Hodder House), state pre-release facilities (Boston State PRC, South Middlesex PRC, Park Drive PRC, and Norfolk PRC), one drug rehab program (Spectrum House), and seven contract pre-release facilities (Brooke House, Coolidge House, Coolidge II, THP, McGrath House, Charlotte House and Hillside). For purposes of this report, the Massachusetts Correctional Institutions are collapsed in to the "non-pre-release" category. Statistics for the maximum security facility (MCI-Cedar Junction) medium security facilities (MCI-Concord, OCCC, MCI-Framingham, MCI-Norfolk, SECC and NCCI), minimum security facilities (Bay State C.C. and N.C.C.) and three facilities which combine minimum and pre-release populations (MCI-Plymouth, MCI-Warwick and Longwood T.C.) are presented in another report (Number 348), along with a description of the recidivism data. In order to be consistent with past recidivism reports, MCI-Plymouth, MCI-Warwick, Hodder House and MCI-Longwood are reported as minimum, and MCI-Shirley and MCI-Lancaster are reported as pre-release.

Information contained in this report includes recidivism rates with regard to release variables, nature of present offense, personal background, criminal history, furlough participation, and release follow-up variables. Each table contains two types of information: (1) statistical data describing characteristics of offenders released from each institution during 1987; and (2) the rates of recidivism cross-tabulated with each of the categories of the statistical data for these offenders.

This report consists solely of statistical tables. In reading these tables, the reader should note the following: (1) the release population is divided according to the institution of release; (2) N represents the number of offenders who fall into the corresponding category in the table; (3) P represents the percentage of the number of offenders in a particular category to the number of offenders released from that institution (column percents); and (4) RR (Recidivism Rate) represents the percentage of offenders in that category who have recidivated. For example, upon referring to the first table on pages 8 and 9 the variable "Type of Release" is presented and the following kinds of information may be obtained: (1) the total number of releases broken down by specific institution is labeled and presented horizontally across the head of the table; (2) the type of release (parole or discharge) is labeled and presented vertically; (3) of the 2,859 offenders released during 1987, (60%) were released on parole and (40%) were released on a discharge; and (4) those offenders released from Lancaster who were released on parole had a recidivism rate of 29% while those offenders released from Lancaster on a discharge had a recidivism rate of 35%.

The material was derived from the DOC computerized inmate data base. Additional court record information was collected at the Office of Commissioner of Probation's Research and Planning Department.

## II. Methods

During 1987, a total of 2,859 offenders (2,278 males and 581 females) were released from DOC facilities after having been incarcerated in the DOC for at least 30 days. Any offender who was incarcerated for less than 30 days or who was not released to the street (i.e., released to a new sentence at a State, Federal or county facility, or released to and held on a warrant) was excluded from the study. In the case of inmates transferred from houses of correction to Longwood T.C., the time spent in county facilities was counted towards the 30 days. An analysis of cases excluded from the sample can be found in Section VI, Technical Notes of report number 348. The follow-up period is one year from the date of the offender's release to the community. A recidivist is defined as any offender who returns to a state or federal correctional institution, or to a house of correction or jail during the follow-up period for 30 days or more. This includes parole violators as well as those offenders sentenced for new crimes.

There were three individuals released from Lemuel Shattuck hospital, and four individuals released from OCCC. In order to protect the identity of these individuals, in the statistical tables in Section Three of this report their releases are included in the "other" institution category. There was also one individual released from Spectrum House who is included in the total columns in the tables but not in a specific institution category.

---

Recidivism data was collected and coded for this study by students from the Northeastern University Cooperative Education Program. Special thanks for their efforts.

1. The first part of the report discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the report focuses on the role of internal controls in ensuring the accuracy and reliability of financial information. It outlines various control measures that can be implemented to minimize the risk of errors and misstatements.

3. The third part of the report addresses the issue of transparency and accountability in financial reporting. It argues that organizations should provide clear and concise information about their financial performance to stakeholders, including investors, creditors, and the public.

4. The fourth part of the report discusses the impact of external factors, such as changes in the regulatory environment and market conditions, on financial reporting. It suggests that organizations should stay up-to-date with the latest regulations and adapt their reporting practices accordingly.

5. The fifth part of the report concludes by summarizing the key findings and recommendations. It reiterates the importance of maintaining accurate records, implementing strong internal controls, and ensuring transparency and accountability in financial reporting.
