Abstract

This report summarizes the movement of offenders in the custody of the DOC during 1992. Some of the highlights of the information presented in this report include:

There were 24,944 admissions and 24,837 releases of all types to and from DOC facilities during 1992, including movements between facilities.

The continued pattern of admissions surpassing releases led to a 41% population growth in the agency over the past five years.

In 1992 admissions to the DOC included commitments/from and after sentences (N=3,407), parole/probation violators (N=1,347), and county transfers (N=532).

In 1992 releases from the DOC included paroles to street (N=1,461), discharges to street (N=1,446), transfers to county facilities (N=1,569) and expirations of sentence to street (N=504).

Definitions

Court Commitments	- Includes individuals entering DOC directly from courts, on forthwith sentences, and on sentences to be served from and after a county sentence.
Probation Violator	- Re-admission of an individual previously released on a 'split' sentence. Court orders balance of sentence to go forward.
Parole/Discharge to Other Authority	- Includes paroles to county facilities, out of state facilities.
Parole/Discharge to Other Sentence	- Includes parole to from & after sentence at DOC or non-DOC facilities.
Release to Warrant	- Includes paroles and discharges to outstanding warrants, such as parole violation warrants.
Release by Court	- Includes sentences that are vacated.
Transfer to House of Correction	- Includes DOC and Non-DOC inmates transferring or returning to county facilities.
Transfer to Other Authority	- Includes DOC and Non-DOC inmates transferring or returning to facilities in other states, and federal facilities.
Bridgewater	- Includes the Bridgewater State Hospital, the Sexually Dangerous Treatment Center, and the Addiction Center.
Hodder House	- A minimum/pre-release facility for female offenders in Framingham.
M.H.H.I.	- Massachusetts Halfway Houses, Incorporated is a non- profit organization that provides facilities to the DOC on a contract basis which includes the following facilities: Brooke House, McGrath House, and the Temporary Housing Project.
N.C.C.	- Northeastern Correctional Center at Concord.
N.C.C.I.	- North Central Correctional Institute at Gardner.
O.C.C.C.	- Old Colony Correctional Center at Bridgewater.
S.E.C.C.	- Southeastern Correctional Center at Bridgewater. S.E.C.C. has medium security and minimum security beds, but is considered a medium security facility for purposes of this report.
W.S.A.T.P.	- Women's Substance Abuse Treatment Program. Includes Faith House, Griffin House, and Another Chance.
Maximum	- Cedar Junction.
Medium	- Concord, Framingham, SECC, OCCC, NCCI, Norfolk, Bay State, and Shirley Medium.
Minimum	- NCC and Shirley Minimum.
Minimum/Pre-Release	- Lancaster, Plymouth, Pondville, South Middlesex, Longwood, and Hodder House.
State Pre-Release	- Boston State and Park Drive.
Contract Pre-Release	- MHHI, WSATP, Charlotte House, Houston House and Hillside Pre-Release.
Secure Hospitals	- Lemuel Shattuck, and Bridgewater.

I ntroduction

*T*he population movement report is one of the annual statistical reports prepared by the Research Division of the Massachusetts Department of Correction. Each correctional facility of the Department of Correction submits weekly admission and release rosters describing each offender's move into or out of that facility. This annual movement report is a compilation of these admissions and releases during 1992. It presents information by type of admission and release including new court commitments, paroles, returns on parole violation, discharges, escapes, deaths, transfers to other correctional facilities both within the state and outside of the state, and trips to hospitals and courts. The report presents information on some of the recent changes in the patterns of admissions and releases in the Department as well as a detailed description of inmate movement occurring in 1992.

Offenders can be received into the Department in a number of ways. Offenders can be committed by the courts to Cedar Junction, Concord or Framingham. Offenders can also arrive from another institution to begin serving a new sentence, having finished one sentence and starting another sentence. These are "from and after", and "forthwith" sentences. Generally, an offender would be paroled or discharged from the initial sentence and then committed on a new sentence.

Offenders can be admitted in ways that are not directly related to beginning a sentence. Offenders who have violated some condition of their parole can be returned as parole violators to continue serving the sentence on which they were released. Offenders can also be returned from outside releases of short duration such as trips to courts or hospitals, or be returned from escape. Additionally, offenders can be transferred from other correctional authorities including houses of correction, federal prison authorities, or prison authorities of other states.

Likewise, offenders can be released from the DOC in a variety of ways. Offenders can be released by the authority of the Parole Board, by receiving a good conduct discharge, by serving the maximum term of their sentence, or by obtaining a court-revised sentence. Such parolees and releasees can be sent to the community, to another prison authority, or to another sentence. Offenders also can be released on a short term basis to hospitals or courts. Moreover, the death of an offender or an escape from confinement is classified as a release.

The most common type of movement is a transfer from one facility within the Department to another. Because the Department maintains facilities of different security levels, an offender is initially placed in one of three commitment institutions (Cedar Junction, Concord or Framingham), or is transferred from a county facility to the Longwood Treatment Center, and then moved to lower security facilities in the process of serving his/her sentence. Such inter-institutional transfers are generally from a higher security setting to a lower security setting, but occasionally transfers are made from lower to higher security. Each time a movement of this type occurs, the institution of destination records an admission and the institution of origin records a release. A major change occurred in 1992 in the way that less than 24 hour moves to and from hospitals and courts were recorded when the department switched from the CHSB database to its internal MIS division.

When considering numbers of admissions and releases, this report does more than tabulate the number of offenders admitted from the courts and released by parole or the termination of their sentence. This report includes information on all types of admissions to and releases from each of the institutions in the Department and, as such, is a valuable statistical description of the flow of offenders through the Massachusetts Department of Correction during a given year.

In this section, some of the technical aspects of the preparation of this report are discussed, including the sample, institutions, and table interpretation.

Sample. This report summarizes the movement of criminally sentenced individuals in the custody of the Department of Correction. Excluded from the analysis are the individuals who were civilly committed or on a detention status when admitted to or released from the Department. Thus, the movements of individuals admitted to await trial or individuals admitted on 15-day Parole Board detainees are not included in this report. In some cases, however, the admissions and releases

Generally, the admissions and releases included in this report are associated with the physical movement of inmates from one institution to another or from the community to a correctional facility.

represent "paper" transactions. For example, an inmate may be discharged from one facility to a "from & after" sentence, and transferred back to the first institution without any accompanying physical movement. Such paper transactions appear as admissions and releases in this report.

The report includes the movement of offenders to and from courts and community hospitals when such moves result in the inmate being out of the custody of a DOC facility for at least one night. Since July, 1992, each institution record their inmates' movement for court appearances or to receive medical services not requiring over-night change of custody directly into the database. These movements are now included in this report. The movement of inmates to temporary release programs in the community such as furloughs, work-release or education release are not included in the statistics on population movement.

Institutions. The admissions and releases included in this report represent the movement of population into and out of the custody of DOC facilities, including Longwood Treatment Center and contract facilities.

The report excludes any population movements at Bridgewater State Hospital, Treatment Center and Addic-

tion Center, except as reported by other DOC facilities. The movement of an inmate in any other non-DOC correctional facility is not included in this report, even if that inmate was originally sentenced to the Department. Thus, if an inmate were transferred to a county facility and subsequently paroled, the transfer from the DOC to the county facility is included as a release from a DOC facility but the subsequent parole from the county facility is not included. Conversely, the movement of inmates not originally sentenced to the DOC but who are admitted to or released from a DOC facility are included in this report.

The intra-institutional movement of inmates is not included in this report with the exception of Hodder Cottage at Framingham. Women transferred from Framingham to Hodder Cottage are included as inter-institutional transfers in this report. Massachusetts Halfway Houses, Incorporated (MHHI) includes four separate facilities. Transfers from one MHHI facility to another are presented as inter-institutional transfers.

Lemuel Shattuck is a secure medical facility that serves many correctional facilities, including county facilities. Sentenced county inmates transferred to Lemuel Shattuck are not included in this report, unless they were already serving their sentence in a DOC facility such as the Longwood Treatment Center. Consistent with other institutions, pre-sentenced or civilly committed individuals are also not included in the reports of population movement.

Table Interpretation. In reading the tables in this report, the reader should note that: (1) the top number in each cell in the body of a table represents the number of moves which are characterized by the corresponding row and column categories of that table; and (2) the bottom number in parentheses in each cell represents the percentage of total moves in that column (column percent) corresponding to the row category. The percentages sum down the column to total 100 percent. For example, Table 1 indicates that court commitments comprise 2,004 admissions or 57 percent of the total admissions to Cedar Junction during 1992. All tables in the text should be read as reporting the admissions, releases, transfers and returns to or from the institutions identified across the top of the tables. Reading the numbers and percentages in this way is consistent with the document's discussion of the movement information.

P

opulation Movements in 1992:

A Statistical Description

(This section presents a more detailed analysis of the 49,781 admissions and releases that occurred during 1992. More complete information can be found by consulting the statistical tables that follow this section.)

Admissions. Admissions of all types into DOC institutions during 1992 were 24,944.

There were 3,407 admissions of inmates beginning new sentences, including 3,356 new court commitments and 51 'from & after' sentences. Inmates re-admitted on a sentence as a result of violating their parole or probation were 1,347. There were 1,286 admissions on parole violations and 61 admissions on probation violations during 1992.

Admissions of county inmates into DOC facilities were 532, thirty-nine admissions of out-of-state inmates into DOC facilities, and 17 admissions from federal facilities during the year.

There were 1,074 admissions of DOC inmates returning from county facilities, and 62 admissions of DOC inmates returning from out-of-state facilities. A number of admissions resulted from temporary releases from custody including returns from court (N=3,269), returns from community hospitals (N=2,214), and returns from escape (N=76).

Releases. Releases of all types from DOC facilities during 1992 were 24,837.

There were 1,521 paroles of all types during 1992 including 1,461 paroles to the street, 14 paroles to the custody of another state, 5 paroles to federal authorities, 33 paroles to immigration authorities, 2 paroles to 'from and after' sentences at county facilities in Massachusetts, 2 paroles to outstanding warrants, and 4 paroles to 'from and after' sentences in DOC facilities.

There were 1,640 discharges and expirations of all types during 1992 including 1,446 discharges to street, 18 discharges to custody of another state, 14 discharges to a federal authority, 50 discharges to immigration authorities, 29 discharges to a 'from and after' sentence to a county facility, 36 discharges to an outstanding warrant, and 47 discharges to a 'from and after' sentence at a DOC facility.

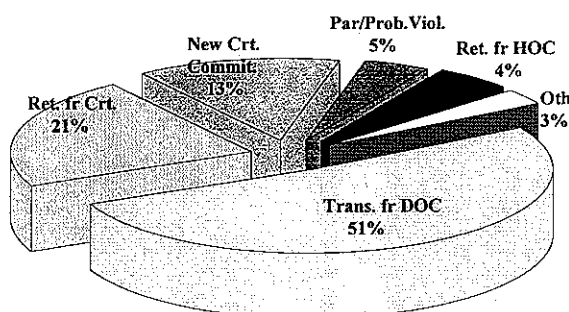

Figure 1. Admissions

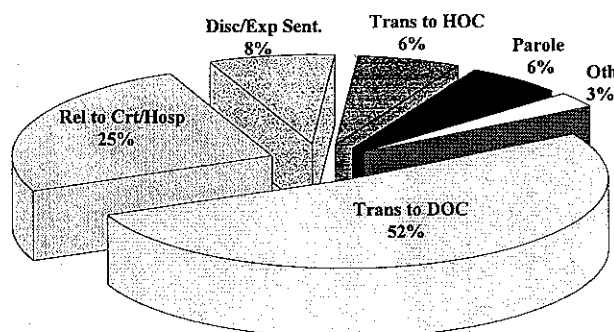

Figure 1a. Releases

1992 Population Movements

There were 504 expirations of sentence to the street, 1 expiration to another state, and 30 expirations to other correctional custody.

There were 117 court ordered releases of inmates due to sentences being revoked or vacated, or inmates released to await a new trial. There were 3,472 cases of releases by court of a more temporary nature due to the offender being remanded to court for an appearance, 41 cases where the offender was removed to the court and received a change in sentence, often to a forthwith sentence, and 12 cases in which the offender was removed to the custody of a sheriff or the U.S. Marshall.

There were 1,724 transfers to other correctional authorities. This includes 1,569 transfers to county facilities in Massachusetts, 136 transfers to correctional facilities in other states (including 72 DOC inmates and 42 non-DOC inmates), and 19 transfers to federal correctional authorities.

There were 27 releases due to the death of an inmate during 1992. There were 22 deaths due to natural causes, three suicides, one accident and one homicide during the year. There were 118 escapes from DOC facilities and 185 releases to community hospitals during 1992.

Court Commitments. There were 3,356 new court commitments during 1992, and 51 admissions due to an individual beginning a "from and after" sentence, for a total of 3,407 court commitments during the year. Figure 2 shows the distribution of commitments to the committing institutions. Table 3 shows the court of commitment for the 3,407 new court commitments that occurred during the year 1992. The information from this table was derived from the inmate booking file.

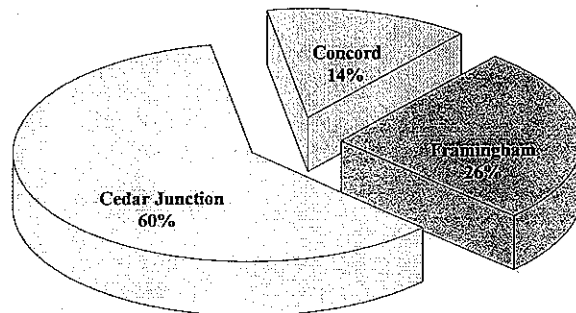

Figure 2. Court Commitments

Inter-Institutional Transfers. Tables 4 through 7 display information on inter-institutional transfers. Tables 4 and 5 display each move by the origination/destination facility and the specific institution to or from which the inmate transferred. Tables 6 and 7 display each inter-institutional transfer by the security level of the origination/destination facility and the specific facility to or from which the inmate transferred.

Transfers From. Tables 4 and 6 show inter-institutional transfers by the institution from which the inmate was released. Concord, which acts as the departmental reception and diagnostic center, had the largest number of releases to other DOC facilities and accounted for 31 percent of all such moves (N=3,949). Other DOC facilities that transferred large numbers of inmates to other facilities include Cedar Junction (N=2,643), Shirley-Med (N=837), Gardner (N=758), OCCC (N=751) and SECC (N=718).

1992 Population Movements

Twenty-one percent of all inter-institutional transfers were from the maximum security facility, Cedar Junction. Of these, 99 percent were transferred to medium security facilities and 1 percent were transferred to secure hospitals. There were 3 transfers from Cedar Junction to minimum/pre-release facilities (Table 4.1, page 12).

Sixty-four percent of all inter-institutional transfers were from medium security facilities. Ten percent of these were to higher security (Cedar Junction), 62 percent were lateral transfers to other medium security facilities, 26 percent were transfers to minimum/pre-release facilities, and 2 percent were transfers to secure hospitals.

Fourteen percent of all inter-institutional transfers were released from lower security. There were five transfers from a minimum/pre-release facility to a maximum security facility, 52 percent of these transfers were to medium security facilities, 47 percent were transfers to other lower security facilities, and 1 percent were transfers to secure hospitals.

One percent of all transfers were released from the secure hospital, Lemuel Shattuck. Six percent of the transfers from Lemuel Shattuck were to maximum security, 83 percent were to medium security, 5 percent were to lower security facilities and 6 percent were to other secure hospitals.

Transfers To. Table 5 and 7 show inter-institutional transfers by the institution to which the inmate was admitted. Concord had the highest number of admissions from other DOC facilities (N=2,978) and accounted for 23 percent of all such admissions. Other facilities with large numbers of admissions from other DOC facilities include Shirley-Medium (N=1,730), Gardner (N=1,092), SECC (N=979), and Norfolk (N=956).

Six percent of all inter-institutional transfers were to maximum security, Cedar Junction. Ninety-eight percent of these were from medium security facilities, 1 percent were from secure hospitals, and five admissions (less than one percent) were from lower security facilities.

Sixty-eight percent of all inter-institutional transfers were to medium security facilities. Of these transfers, 29 percent were from maximum security, 56 percent were lateral transfers from other medium security facilities, 13 percent were returns from lower security facilities, and 2 percent were transfers from secure hospitals.

Twenty-four percent of all inter-institutional transfers were to lower security facilities. Of these transfers, 3 (less than one percent) were from maximum security, 78 percent were from medium security facilities, 21 percent were from other lower security facilities, and 1 percent were from secure hospitals.

One percent of all inter-institutional transfers were to Lemuel Shattuck hospital. Of these transfers, 6 percent were from maximum security, 80 percent were from medium security, 8 percent were from lower security facilities, and 6 percent were from other secure hospitals.

Releases to Hospital. Offenders needing hospital care can be treated at various community hospitals or Lemuel Shattuck Hospital, a hospital at which the Department of Correction maintains a secure ward for offenders in custody. During 1992 there were 1,324 transfers to Lemuel Shattuck Hospital from Department of Correction facilities and 1,215 transfers from Lemuel Shattuck to state correctional institution. There were 1,418 releases

1992 Population Movements

to and 999 returns from community hospitals (Tables 9 and 10) during 1992. New England Medical Center had the greatest number of admissions and releases, followed by Norfolk Infirmary, and 'unknown' sources. Together, these hospitals constitutes 24 percent of all moves to and returns from community hospitals. Norfolk had the largest number of moves to and admissions from community hospitals.

Transfers to Houses of Correction. Four types of movements between county houses of correction and state facilities are presented in Tables 10 through 13 of this report.

The first type of move involves a state or county inmate transferred from a DOC facility to a county house of correction to serve or finish a sentence. There were 1,569 such transfers in 1992. The Hampden County House of Correction (N=235) and Billerica County House of Correction (N=235) received the largest number of transfers. Concord (N=780), and Framingham (N=225) transferred the most inmates during 1992.

The second type of move is the return of a Department of Correction inmate from a county facility. There were 610 such returns in 1992. Thirty-one percent of the returns were to Concord. The largest number of returns were from Plymouth House of Correction (N=124).

The third type of move is the transfer of a county inmate to a Department of Correction facility. There were 532 such transfers in 1992. Seventy-two percent of these admissions came from 'unknown' sources, 15 percent are from South Bay House of Correction (see Table 13). All of the admissions were to the Longwood Treatment Center (65 percent), Concord (21 percent) and Framingham (14 percent). The Longwood Treatment Center is a specialized facility for the treatment of individuals committed for Operating Under the Influence of Alcohol (O.U.I.) and receives individuals originally committed to county facilities for O.U.I.

The fourth type of move is the release of a Department of Correction inmate to a county facility on a "from and after" sentence. There were 70 such releases in 1992.

Movements to Other States. Table 14 shows that there were 114 transfers from Department of Correction facilities to prisons in other states. This included 72 Department of Correction inmates and 41 inmates under the jurisdiction of other correctional authorities. Eighty-nine percent of the offenders were transferred to prisons in other New England states, including 35 percent to Rhode Island and 34 percent to New Hampshire. There were 101 admissions from prisons in other states during 1992 (Table 15). Inmates admitted from out-of-state prisons included the return of 62 Department of Correction offenders and transfer of 39 offenders under the jurisdiction of other correctional authorities. Ninety-one percent of the offenders were sent from prisons in other New England states, including 41 percent from New Hampshire, and admitted most often to Concord (45 percent), or Cedar Junction (22 percent).
