Reemployment and Eligibility Assessment (REA)

1,106 Lucas County residents, during FFY 2012, participated in the Reemployment and Eligibility Assessment (REA) program, which provides unemployed job seekers with services that promote quicker re-entry into the workforce.

NOTE: The number of REAs completed in 2012 significantly decreased due largely to the passage of legislation requiring states to offer a program similar to REA to all claimants receiving federal extended benefits. Due to capacity issues, One-Stops were unable to serve as many REA claimants as had been in the past.

Family Services

Child Safety and Care/Placement

The Lucas County Public Children Services Agency administers local adoption assistance, foster care services, and child welfare intervention programs. The agency strives to reunify children with their families when possible, or find other permanent living arrangements for them when they cannot safely return home.

Ohio's Differential Response System

Differential Response offers child welfare agencies options for responding to accepted reports of child abuse and neglect by requiring that such reports be assigned to either the "Traditional Response (TR)" pathway or the "Alternative Response (AR)" pathway. In some instances, a traditional child protection response is needed in order to determine whether abuse or neglect has occurred and to ensure child safety and well-being. AR sets aside fault finding and substantiation decisions and applies only to reports that do not allege serious or imminent harm. In an AR response, caseworkers partner with families and ensure they are connected with the services and supports they need to keep their children safe.

By August 2011, thirty three counties had implemented the Differential Response System. As of September, 2012 an additional fifteen counties went 'live,' increasing the grand total to forty eight 'active' counties. To date, 70 counties have implemented Differential Response.

Determination of Case Status CY 2009 – Year-To-Date CY 2013, as of June 2013.

TRADITIONAL RESPONSE REPORT TYPES

Substantiated or Indicated -	Reports with a "Substantiated" or "Indicated" finding.
Unsubstantiated -	CPS reports with a finding of "Unsubstantiated:" due to intentionally false report; other than intentionally false report.
Closed/no finding -	Cases Closed Without Finding.
Other -	Case Closed For Other Reasons; Unknown or Missing.
Dates of conclusion -	The period of time that children in the Total had a completed CPS investigation or assessment.
Total Dispositions -	Child Protective Services (CPS) report investigation or assessments completed during the Report Period.

CHILD WELFARE PERFORMANCE INDICATORS

Children and Family Services Review (CFSR) Performance Measures

In 2004, the U.S. Health and Human Services, Administration of Children and Families, mandated a Children and Family Services Review (CFSR) process to gauge the effectiveness of child-welfare programs. The CFSR is a review of state child welfare systems and a guide that validates successful strategies and provides insight for areas needing improvement.

The Ohio CFSR Dashboard is a program evaluation and management tool. It empowers managers to detect problems in performance and make changes to programs prior to the end of the review period, thereby avoiding financial penalties.

The program year for the federal reporting period is April 1 to March 31. Data presented is as of March 31, 2013.

Note: The 'Annual Target' is the Program Year value that must be met or exceeded to be compliant with Federal Government Standards and avoid penalties.

CFSR Permanency Measure C1-3: Entry Cohort Reunification in < 12 months

Of all children entering foster care for the first time between October and March, (6 months) prior to the beginning of the evaluation period, and remained in care for longer than one week, what percent was discharged from foster care to reunification in less than 12 months from the date of the latest removal from home? Target: At least 48.4% of the children must be reunified to avoid risk of Federal penalty.

CFSR Permanency Measure C2-3: Children in Care 17+ Months, Adopted by the end of the Year

Of all children in foster care for 17+ months on April 1 of the evaluation year (and not discharged from foster care with a discharge reason of living with a relative, reunification, or guardianship), what percent was discharged from foster care to finalized adoption by the last day of the evaluation period? Target: At least 22.7% of the children must be adopted to avoid risk of Federal penalty.

CFSR Permanency Measure C3-1: Exits to Permanency Prior to 18th birthday for Children in Care for 24+ Months This includes reunification, guardianship or permanent placement with relatives.

Of all children in foster care for 24 months or longer on April 1 of the evaluation period, what percent was discharged? The target percent of children represents the percent released to a permanent home prior to their 18th birthday and by March 31, guardianship, or reunification (including living with relative).

CFSR Permanency Measure C4-3: Two or Fewer Placement Settings for Children In Care 24+ Months

Of all children in foster care for at least 24 months on April 1 of the evaluation year, what percent had two or fewer placement settings? The annual target of 41.8% is the minimum percent to avoid risk of Federal penalty.

Family Services

Child Care

Ohio counties provide child care services and early learning opportunities that families need to succeed at work and school. Through state and federal funding, families whose income is at or below 125 percent of the federal poverty guideline can receive payment for all or part of their monthly child care expenses while parents work or attend job training/educational activities. A family may remain eligible until income increases to 200 percent of the federal poverty guideline.

"Step Up To Quality" Program

Step Up To Quality (SUTQ) is Ohio's voluntary quality rating system for child care programs. SUTQ is designed to increase the number of high-quality programs, recognize and support programs that achieve higher quality standards, and provide parents with an easy-to-use tool to assist them in making more informed choices on behalf of their children. Programs with the highest ratings qualify for monetary awards.

The number of Licensed Child Care Centers Earning Quality Ratings as of June 30, 2013: 91
