I. Introduction

This report presents a statistical description of offenders released to the street from Massachusetts correctional facilities with a pre-release component during 1986 with corresponding recidivism rates. This report presents statistics for two facilities which combine minimum and pre-release populations (MCI-Shirley and MCI-Lancaster), state pre-release facilities (Boston State PRC, South Middlesex PRC, Park Drive PRC, and Norfolk PRC), one drug rehab program (Meridian House), and seven contract pre-release facilities (Brooke House, Coolidge House, Coolidge II, THP, McGrath House, Charlotte House and Hillside). For purposes of this report, the Massachusetts Correctional Institutions are collapsed in to the "non-pre-release" category. Statistics for maximum security facilities (MCI-Cedar Junction and Lemuel Shattuck), medium security facilities (MCI-Concord, MCI-Norfolk, MCI-Framingham/Hodder House, SECC and NCCI), minimum security facilities Bay State C.C. and N.C.C.) and three facilities which combine minimum and pre-release populations (MCI-Plymouth, MCI-Warwick and MCI-Longwood) are presented in another report (Number), along with a description of the recidivism data. In order to be consistent with past recidivism reports, MCI-Plymouth, MCI-Warwick and MCI-Longwood are reported as minimum, and MCI-Shirley and MCI-Lancaster are reported as pre-release.

Information contained in this report includes recidivism rates with regard to release variables, nature of present offense, personal background, criminal history, furlough participation, and release follow-up variables. Each table contains two types of information: (1) statistical data describing characteristics of offenders released from each institution during 1986; and (2) the rates of recidivism cross-tabulated with each of the categories of the statistical data for these offenders.

This report consists solely of statistical tables. In reading these tables, the reader should note the following: (1) the release population is divided according to the institution of release; (2) N represents the number of offenders who fall into the corresponding category in the table; (3) P represents the percentage of the number of offenders in a particular category to the number of offenders released from that institution (column percents); and (4) RR (Recidivism Rate) represents the percentage of offenders in that category who have recidivated. For example, upon referring to the first table on pages 8 and 9 the variable "Type of Release" is presented and the following kinds of information may be obtained: (1) the total number of releases broken down by specific institution is labeled and presented horizontally across the head of the table; (2) the type of release (parole or discharge) is labeled and presented vertically; (3) of the 2,767 offenders released during 1986, (64%) were released on parole and (36%) were released on a discharge; and (4) those offenders released from Lancaster who were released on parole had a recidivism rate of 24% while those offenders released from Lancaster on a discharge had a recidivism rate of 14%.

The material was derived from the DOC computerized inmate data base. Additional court record information was collected at the Office of Commissioner of Probation's Research and Planning Department.

II. Methods

During 1986, a total of 2,767 offenders (2,156 males and 611 females) were released from DOC facilities listed above after having been incarcerated in the DOC for at least 30 days. Any offender who was incarcerated for less than 30 days or who was not released to the street (i.e., released to a new sentence at a State, Federal or county facility, or released to and held on a warrant) was excluded from the study. In the case of inmates transferred from houses of correction to Longwood T.C., the time spent in county facilities was counted towards the 30 days. An analysis of cases excluded from the sample can be found in the Appendix of the main report. The follow-up period is one year from the date of the offender's release to the community. A recidivist is defined as any offender who returns to a state or federal correctional institution, or to a house of correction or jail during the follow-up period for 30 days or more. This includes parole violators as well as those offenders sentenced for new crimes.

There were four individuals released from Lemuel Shattuck hospital, and two released from Medfield Prison Project. In order to protect the identification of these individuals, in the statistical tables in Section Two of this report their releases are included in the "other" institution category.
