Months Served Before First Furlough	108

INTRODUCTION

This report is a description of the characteristics of the inmates in each correctional facility on January 1st, 1977. This point in time inmate profile contains information on background characteristics, present offense, criminal history, and furlough participation. The tables were derived from the computerized data base developed by the Correction and Parole Management Information System (CAPMIS) and produced by the Research Unit of the Department of Correction on the Massachusetts State College Computer Network (MSCCN).

NOTE: This year's report differs from that of last year in format. Last year, the number of unknown data for each table was listed at the bottom of that table. This year, each table has an unknown category included in that table.

GLOSSARY OF TERMS

INSTITUTIONS:

RDC (Reception Diagnostic Center)
S.E.C.C. (Southeastern Correctional Center)

Page 1.

Court from which committed

- A. Municipal courts: lower courts of Suffolk County
- B. District courts: lower courts of all other counties

Page 17.

Occupational field

These categories were derived from a code scheme developed by Martin Hamburger, Teachers College, Columbia University. The following are examples of occupations in each category:

Professional: lawyers, doctors, clergy, engineers

Semi-professional: teachers, social workers,
artists, youth workers,
researchers

Business: owners or managers of any business
sales

Clerical: insurance salesmen, secretaries,
dime store clerks

Skilled manual: tradesmen such as carpenters
& plumbers of a skill level
above apprentice

Semi-skilled manual: factory workers, con-
struction laborers

Unskilled manual: general laborers, dish-
washers

~~Services: police, firemen, bartender, taxi
driver~~

Agriculture: farmers and farm workers

Armed services: those in armed services without
special training

Unemployed: little or no work experience

Page 25

Drug Use

- A. This data is based upon information obtained from the probation department report prepared on each commitment. A person is described as a drug user if he (1) describes himself as such or (2) has had arrests for narcotic offenses.

Page 27.

Minimum sentence in years

Indeterminate: sentences without a minimum term, parole eligibility determined by Parole Board regulations.

Page 35

Time until original P.E. date
Beyond P.E. date: persons not paroled at original P.E. date or paroled and subsequently revoked & seen on an annual review status.

Page 39

Present offense
If the present commitment is for more than one charge, present offense refers to the most serious charge.

Page
51-64

Arrests

A. An arrest is defined as an arrest followed by a court appearance & a final disposition. In many cases, several charges are tried at the same time. For the purposes of the table of total arrests, such a situation is considered to be one court appearance & thus one arrest.

Page 67

Number of county incarcerations
A county incarceration is defined as a sentence of not more than 2-1/2 years to be served in an institution such as a house of correction.

Page
95-98

Age at 1st arrest for drunkenness, drugs
Not applicable: never arrested for such offenses

Page
103-107

Furlough outcomes

Successful: returned to facility within designated number of hours without any difficulties

Late under: returned to facility within 2 hours after designated time of return without furlough problems

Escape: declared escape, did not return voluntarily within 24 hours of designated time of return.

Arrest: arrested while on furlough

EXPLANATION OF TABLES

Each column represents a correctional institution. There are 19 of these categories which take up 2 pages (10 on one page, 9 on the other). Each row represents a category of the specified variable. For example: the variable race has 4 categories (4 rows) which are white, black, other and unknown.

At the bottom of each table there are 2 numbers under each column. The top number is the actual number of inmates for the corresponding institution. The bottom number represents the percent of the total population at that institution. When a table has more categories than can be listed on one page, the column totals are listed on each page and they represent the totals of all the categories for the complete table.

At the right of each table, there are 2 numbers for each row. Similarly the top number is the actual number of inmates who fall into the corresponding category and the bottom number is the percent of the total population in the corresponding category. The row totals are listed on each page of the table and represent the totals of all categories.

The rest of the table consists of boxes (cells) each with 2 numbers. The top number represents the number of inmates at the corresponding institution (column) who fall into the corresponding category (row). The bottom number is the column percent. The column percent is the percent of the inmates at the particular institution (column) who fit into the corresponding category. For example:

	BOSTON	
	STATE----	I
	I	23 I
BLACK	I	39.7 I
	I-----	I

23 people are black in Boston State
39.7% of all people in Boston State are black.
