INTRODUCTION

This report consists of a statistical description of the characteristics of releases to the street from the Massachusetts Department of Correction during 1979. The tables which follow contain information on the nature of the present offense, personal background characteristics, criminal history variables, furlough participation variables, and release variables for all individuals released to the streets from Massachusetts Correctional Institutions. These tables were derived from the computerized data base developed by the Correction and Parole Management Information System (CAPMIS) and was produced by the Research Unit on the Massachusetts State College Computer Network (MSCCN).

In reading the tables in the report, the reader should note the following: (1) the release population is divided according to institution of release, (2) the top number in each cell represents the number of individuals who fall in the corresponding category in the table and (3) the bottom number in each cell represents the percentage of the number of individuals in a particular category to the total number of releases from that institution (column percents). This report is divided into 2 sections. The first section lists the specific non-pre-release institutions and combines the pre-release facilities into one category. The second section lists the specific pre-release facilities and combines the non-pre-release in situations into one category. For example, upon referring to table II on page 14 Jail Credits is presented, and the following types of information can be obtained:

- (1) The total number of individuals broken down by the institution of release is presented horizontally across the head of the table.
- (2) The specific number of days of jail credits are labeled and presented vertically.
- (3) Of the 1124 individuals released during 1979, 143 were released from MCI-Walpole.
- (4) Of the 143 releases from Walpole, 16 (11%) had more than 200 days of Jail Credits at commitment.

SUMMARY OF STATISTICS

During 1979, there were 1,124 individuals released to the street from Massachusetts Correctional Institutions. This is approximately the same as the number of releases during 1978.

Nature of Present Offense

Sentencing Courts. Over half of the releases were originally sentenced in three of the Superior Courts - Suffolk (30%), Middlesex (14%), and Worcester (9%).

Jail Credits. More than half (51%) of the releases spent 10 days or less in jail while awaiting trial.

Commitment Institution. Most of the releases (46%) were sentenced to MCI-Concord.

Sentence. The majority of the releases (61%) served an indeterminate minimum sentence. More than half (52%) of the releases served a maximum sentence of seven years or less. Seventeen individuals (2%) were serving a life sentence.

Most Serious Offense. The majority of releases (57%) were serving sentences for offenses vs. person. The offense for which individuals were most frequently sentenced was armed robbery (32%).

Age at Incarceration: The median age at incarceration was 23 years old.

Personal Background Characteristics

Sex. The majority of releases (85%) were male.

Race. Thirty-percent of the releases were black; 4% were hispanic, and 66% were white, there was one Native American released during 1979.

Marital status. The majority (64%) of releases were single.

Military Discharge. The majority (76%) did not serve in the military.

Prior Address. The majority (58%) came from the greater Boston SMSA.

Occupation. The majority (73%) held manual or service jobs prior to their incarceration.

Education. The median educational level was tenth grade; 26% were either high school graduates or individuals who had received their general equivalency diploma.

Criminal History

Prior Arrests. The median age at first arrest was 16 years. Most of the releases (91%) had been arrested at least once prior to their present offense. A majority (57%) had nine or more prior court appearances. A majority of the releases had prior arrests for offenses vs. person (82%) and for property offenses (83%). A minority had prior arrests for sex offenses (13%), for drug offenses (41%), for drunkenness offenses (30%) and for escape offenses (11%).

Prior Incarcerations. Thirty-nine percent of the releases had prior incarcerations at a house of correction and 25% had prior incarcerations in state or federal correctional institutions. Overall, 58% had served time in some type of correctional facility and 50% had served some time as an adult.

Prior Paroles. Fifteen percent had been paroled from a juvenile facility and 7% had juvenile parole violations. Twenty-two percent had been previously paroled as an adult and 14% had previous adult parole violations. Overall, thirty percent had been paroled at least once prior to their current release and 19% had previous parole violations.

Furlough Variables. A majority of the releases (58%) had never experienced a furlough. Ten percent had a "Late Under" furlough outcome (returned within 2 hours after the designated time of return). Nineteen individuals (2%) escaped on furlough, and one individual was arrested while on a furlough.

Release Variables

Institution of Release. Thirty-three percent were released from pre-release institutions.

Type of Release. The majority (84%) were released on parole and 10% received a good conduct discharge. Only 75 individuals (7%) served their maximum sentence.

Time Served. About one-third (32%) of the releases had complex sentences which include parole violations, transfers from other state or federal institutions, house of correction transfers and individuals with forthwith or from and after sentences. Forty percent served under two years and 7% served five years or longer.

Age at Release. The median age at release was 26 years old.
