INTRODUCTION

This report consists of a statistical description of the characteristics of releases to the street from the Massachusetts Department of Correction during 1981. The tables which follow contain information on the nature of the present offense, personal background characteristics, criminal history variables, furlough participation variables, and release variables for all individuals released to the streets from Massachusetts Correctional Institutions. These tables were derived from the computerized data base developed by the Correction and Parole Management Information System (CAPMIS) and was produced by the Research Unit on the Massachusetts State College Computer Network (MSCCN).

In-reading the tables in this report, the reader should note the following: (1) the release population is divided according to institution of release, (2) the top number in each cell represents the number of individuals who fall in the corresponding category in the table and (3) the bottom number in each cell represents the percentage of the number of individuals in a particular category to the total number of releases from that institution (column percents). This report is divided into two sections. The first section lists the specific non-pre-release institutions and combines the pre-release facilities into one category. The second section lists the specific pre-release facilities and combines the non-pre-release institutions into one category. For example, upon referring to table II on page 16, Jail Credits is presented and the following types of information can be obtained:

- (1) the total number of individuals released broken down by the institution of release is presented horizontally across the head of the table.
- (2) the specific number of days of jail credits are labeled and presented vertically.
- (3) of the 1118 individuals released during 1981, 90 were released from MCI-Walpole.
- (4) of the 90 men released from Walpole, 25 (28%) did not have any days of jail credits at their commitment.

Summary of Statistics

During 1981, there were 1,118 individuals released to the streets from Massachusetts Correctional Institutions. This represents a 10% increase from the 1980 figure.

Nature of Present Offense

Sentencing Courts. Almost half of the releases (46%) were originally sentenced in three of the Superior Courts - Suffolk (24%), Middlesex (12%), and Worcester (10%).

Jail Credits. More than half of the releases (55%) spent some time in jail while awaiting trial for their offense.

Commitment Institution. Concord commitments represented 42% of the releases, Walpole commitments 33%, and Framingham commitments 24%.

Sentence. The majority of the releases (66%) served an indeterminate minimum sentence. More than half (53%) of the releases served a maximum sentence of seven years or less. Twelve individuals (1%) had been serving life sentences.

Most Serious Offense. The majority of releases (61%) had been serving sentences for serious offenses (person - 54%, sex - 8%). The offense for which most of the releases had been sentenced was armed robbery (27%).

Age at Incarceration. The median age at incarceration for the releases during 1981 was 23 years old.

Personal Background Characteristics

Sex. The majority of releases (76%) were male.

Race. Thirty-three percent of the releases were black, sixty-six percent were white, three were Native American, two were Asiatics, and five were hispanics (with no race specified). Twenty-one individuals were listed as white hispanics and twenty-six were listed as black hispanics.

Marital Status. The majority of releases (62%) were single.

Military Discharge. The majority of releases during 1981 (80%) had never served in the military.

Occupation. The majority (74%) of releases held manual (49%) or service jobs (24%), prior to their commitment to prison.

Education. The median educational level for the releases during 1981 was tenth grade; thirty percent were either high school graduates (18%) or individuals who had received their high school equivalency diplomas (12%).

Criminal History

Prior Arrests. The median age at first court appearance was 17 years. Most of the releases (88%) had at least one court appearance prior to their present offense. A majority of the releases had prior court appearances for offenses versus persons (83%) and for property offenses (82%). A minority had prior court appearances for sex offenses (17%), for drug offenses (43%), for drunkenness offenses (28%) and for escape offenses (14%).

Criminal History (continued)

Prior Incarcerations. Thirty-eight percent of the releases during 1981 had prior incarcerations in a house of correction and 27% had prior incarcerations in state or federal correctional institutions. Overall 52% of the releases had served some time as an adult for another offense.

Prior Paroles. Thirteen percent had been paroled while a juvenile and 9% had received a parole violation while a juvenile. Twenty-three percent of the releases during 1981 had been previously paroled as an adult and 15% had previous adult parole violations. Overall, 29% had been paroled at least once prior to their current release and 19% had previous parole violations.

Furlough Variables

A majority of the releases (59%) had never experienced a furlough during their present incarceration.

Of those released from maximum security during 1981, 30% had received furloughs before their release; of those released from medium security institutions, 14% had received furloughs; for those released from minimum security, 48% had received a furlough and 73% of those released from pre-release had received a furlough.

Release Variables

Security Level of Release. Eight percent of the releases were from maximum security, forty-five percent were from medium security institutions, nine percent were from minimum security institutions and thirty-eight percent were from pre-release centers or halfway houses.

Type of Release. The majority of the releases (73%) were released on parole; 15% received a good conduct discharge; 135 individuals (12%) were released due to an expiration of their sentence and 134 of these 135 individuals were short-term women released from MCI-Framingham.

Time Served. Thirty-one percent of the releases had complex sentences which include parole violators, transfers from other states or from federal institutions, house of correction transfers and individuals with forthwith or from and after sentences. Of the remaining individuals, 67% had served two years or less before their release.

Age at Release. The median age at release was 26 years old.

Glossary

Institutions

Pages 64 - 68 124 - 128

- A. Framingham was a co-educational facility
- B. SECC is the Southeastern Correctional Center
- C. NCC is the Northeastern Correctional Center

Furlough Outcomes

- A. Successful returned to DOC facility within the designated number of hours without any difficulties.
- B. <u>Late Under:</u> returned to DOC facility within two hours after the designated time of return.
- C. <u>Later Over</u>: declared an escape, returned to DOC facility voluntarily within 24 hours of the designated time of return.
- D. Escape: declared an escape; did not return voluntarily.
