Introduction

This report is a statistical description of the 4,482 residents in each state correctional facility on January 1, 1984. The report does not include patients at Bridgewater State Hospital (N=1080), individuals who were sentenced to the DOC and were confined in Houses of Correction on January 1, 1984 awaiting transfer to DOC facilities (N=2) or DOC offenders who were transferred to Houses of Correction to serve their sentences (N=52). This point in time profile contains information on present offense, personal background, criminal history and furlough participation. The tables were derived from the Correction and Parole Management Information System (CAPMIS) and were produced by the Research Unit on the Massachusetts State College Computer Network (MSCCN).

In reading the tables in this report, the reader should note the following: (1) the population on January 1, 1984 is divided according to the institution or facility of residence; (2) the top number in each cell represents the number of individuals who fell in the corresponding category in the tables; and (3) the bottom number in each cell represents the percentage of the number of individuals in a

particular category to the total number of residents in that institution or facility (column percent).

This report is divided into two sections: the first section contains information on all facilities that have no pre-release component and the second section contains information on all facilities that have a pre-release component.

For example, upon referring to the table on page 17, committing institution is presented and the following types of information can be obtained:

- (1) the total number of individuals in each institution
- (2) the number and percent of individuals at each institution who were originally committed to Walpole, Concord or Framingham.

The same data are presented for facilities that have a pre-release component in the table on page 70 in section 2.

Summary of Statistics

On January 1, 1984 there were 4,482 individuals incarcerated in the state correctional system. This represents a 3 percent increase from the population on January 1, 1983 and a 21 percent increase from the population on January 1, 1982. Of the 4,482 DOC residents there were 677 (15 percent) in maximum security institutions, (including 11 at Lemuel Shattuck, a secure hospital facility) 2584 (58 percent) in medium security institutions and 1221 (27 percent) in minimum security institutions or pre-release centers.

Nature of Present Offense

Sentencing Courts. Nearly two-thirds of the residents were originally committed from four Superior Courts: Suffolk (29 percent), Middlesex (15 percent), Hampden (11 percent) and Worcester (10 percent).

Sentence. Sixty-nine percent of the population were serving Walpole sentences with a median minimum sentence of nine years; 26 percent of the population were serving Concord sentences with a median maximum sentence of ten years; and 5 percent were serving Framingham sentences of whom 80 (33 percent) were serving prison sentences, 43 (18 percent) were serving reformatory sentences and 116 (48 percent) were serving county sentences. There were 615 (14 percent) lifers in Department of Correction facilities.

Offense. The majority of residents were serving sentences for offenses committed against the person (63 percent) or property offenses (16 percent). The most frequently committed offense was armed robbery (24 percent).

Age at Incarceration. The median age at incarceration was 25 years old.

Age on January 1, 1984. The median age of the population on January 1, 1984 was 28 years old.

There were 361 (8 percent) residents 20 years or younger and 7 (less than 1 percent) residents 65 years or older.

Personal Background Characteristics

Sex. The population was 95 percent male and 5 percent female.

Race. The population was 66 percent white and 33 percent black. The population included 6

Native Americans and 2 Asiatics. The population was 93 percent non-hispanic and 7 percent hispanic.

Marital Status. The population was predominantly single (63 percent).

Prior Address. Two-thirds of the population came from four counties in Massachusetts; Suffolk (33 percent), Middlesex (14 percent), Hampden (10 percent) and Worcester (10 percent).

Occupation. The most common occupations of DOC residents prior to incarceration were in the areas of manual labor (52 percent) and services (27 percent).

Education. The median educational level was tenth grade; 38 percent completed at least a high school level of education.

Criminal History

<u>Prior Court Appearances</u>. The median age at first court appearance was sixteen years old. Sixty percent of the population had nine or more prior court appearances. Ninety-three percent had prior court appearances for offenses against the person; 24 percent had prior court appearances for sex

offenses; 84 percent had prior court appearances for property offenses; 14 percent had prior court appearances for escapes; 25 percent had prior court appearances for drunkenness offenses; and 42 percent had prior charges for narcotics offenses.

Prior Incarcerations. Twenty-five percent had a history of commitments to a juvenile authority; 44 percent had a history of incarcerations to a county authority; and 26 percent had a history of incarcerations to a state or federal authority. Overall, 55 percent had at least one prior incarceration as an adult.

Furloughs

Twenty-eight percent of the population participated in the furlough program during their current commitment; 72 percent had no furlough program participation. Of the furlough program participants, 195 (16 percent) had one or more late under furlough outcomes, 22 (2 percent) had one or more late over furlough outcomes, and 54 (4 percent) had one or more escape furlough outcomes. Explanations of all furlough outcomes appear in the glossary.
