Introduction

This report is a statistical description of the 4,940 residents in each Department of Correction (DOC) facility on January 1, 1985. The report does not include patients at Bridgewater State Hospital (N=1101), individuals who were sentenced to the DOC and were confined in Houses of Correction on January 1, 1985 awaiting transfer to DOC facilities (N=0) or DOC offenders who were transferred to federal prisons, other states or Houses of Correction to serve their sentences, (N=46) or individuals housed in DOC facilities on an awaiting trial basis (N=91), as Parole Board detainees or as civil commitments. This point in time in profile contains information on offense, personal background, criminal history and furlough participation. The tables were derived from the Correction and Parole Management Information System (CAPMIS) and were produced by the Research Unit on the Massachusetts State College Computer Network (MSCCN).

In reading the tables in this report, the reader should note the following: (1) the population on January 1, 1985 is divided according to the institution or facility of residence; (2) the top number in each cell represents the number of individuals who fell in the corresponding category in the tables; and (3) the bottom number in each cell represents the percentage of the number of individuals in a particular category to the total number of residents in that institution or facility (column percent). This report is divided into two sections: the first section contains information on all facilities that have no pre-release component and the second section contains information on all facilities that have a pre-release component.

I wish to acknowledge Joanne Fay, Student Intern from the University of Massachusetts at Amherst for her assistance in the preparation of this report.

For example, upon referring to the table on page 17, committing institution is presented and the following types of information can be obtained:

- (1) the total number of individuals in each institution
- (2) the number and percent of individuals at each institution who were originally committed to Walpole, Conocrd, Framingham, or another jurisdiction.

The same data are presented for facilities that have a pre-release component in the table on page 70 in section 2.

Summary of Statistics

On January 1, 1985 there were 4940 individuals incarcerated in the state correctional system. This represents a 10 percent increase from the population on January 1, 1984 and a 14 percent increase from the population on January 1, 1983. Of the 4940 DOC residents there were 712 (14 percent) in maximum security institutions, (including 22 at Lemuel Shattuck, a secure hospital facility), 2926 (59 percent) in medium security institutions and 1302 (26 percent) in minimum security institutions or pre-release centers.

Nature of Present Offense

<u>Sentencing Courts.</u> Nearly two-thirds of the residents were originally committed from four Superior Courts: Suffolk (29 percent), Middlesex (14 percent), Hampden (11 percent) and Worcester (10 percent).

Sentence. Sixty-nine percent of the population were serving Walpole sentences years with a median minimum sentence of six years; 23 percent were serving Concord with a median maximum sentence of ten years; 6 percent were serving Framingham sentences (of whom 73 (27 percent) were serving prison sentences, 53 (19 percent) were serving

reformatory sentences and 148 (54 percent) were serving county sentences); and 3 percent were from other jurisdictions (counties, other states or federal system). There were 665 (14 percent) lifers in Department of Correction Facilities.

Age at Incarceration. The median age at incerceration was 25 years old.

Age on January 1, 1985. The median age of the population on January 1, 1985 was 29 years old. There were 315 (6 percent) residents 20 years or younger and 9 (less than 1 percent) residents 65 years or older.

Personal Background Characteristics

Sex. The population was 94 percent male and 6 percent female.

Race. The population was 64 percent white and 32 percent black. The population included 8 Native Americans and 6 Asiatics. The population was 91 percent non-hispanic and 9 percent hispanic.

Marital Status. The population was predominantly singe (64 percent).

<u>Prior Address.</u> Two-thirds of the population came from four counties in Massachusetts: Suffolk (33 percent), Middlesex (13 percent); Hampden (11 percent); and Worcester (11 percent).

Occupation. The most common occupations of DOC residents prior to incarceration were in the areas of manaul labor (51 percent) and services (30 percent).

Education. The median educational level was 11th grade; 42 percent completed at least high school level of education.

Criminal History

Prior Court Appearances. The median age at first court appearance was sixteen years old. Sixty percent of the population had nine or more prior court appearances. Ninety-one percent had prior court appearances for offenses against the person; 24 percent had prior court appearances for sex offenses; 83 percent had prior court appearances for property offenses; 14 percent had prior court appearances for escapes; 25 percent had prior court appearances for drunkenness offenses; and 42 percent had prior charges for narcotics offenses.

<u>Prior Incarcerations.</u> Twenty-four percent had a history of commitments to a juvenile authority; 45 percent had a history of incarcerations in a county facility; and 28 percent had a history of incarcerations in a state or federal facility. Overall, 57 percent had at least one prior incarcerations as an adult.

Furloughs.

Thirty percent of the population participated in the furlough program during their current commitment; 70 percent had no furlough program participation. Of the furlough program participants, 229 (15 percent) had one or more late under furlough outcomes, 20 (1 percent) had one or more late over furlough outcomes, and 67 (4 percent) had one or more escape furlough outcomes. Explanations of all furlough outcomes appear in the glossary.
