

Quarterly Report on the Status of Prison Overcrowding, Second Quarter of 1997

Submitted in Compliance with Chapter 799 Section 21 of the Acts of 1985

Larry E. DuBois
Commissioner

July, 1997

Approved by: State Purchasing Agent Publication No. 14,602-09-45-10-10-86

1997 Second Quarter Report

S ection Twenty-one of the Chapter 799 of the Acts of 1985 directs the Commissioner of Correction to report quarterly on the status of overcrowding in the state and county facilities. This statute calls for the following information:

Such report shall include, by facility, the average daily census for the period of the report and the actual census on the second and the last days of the report period.

Said report shall also contain such information for the previous twelve months and a comparison to the rated capacity of such facility.

This report presents the required statistics for the second quarter of 1997.

This report was prepared by Ramon V. Raagas of Research and Planning and is based on daily count sheets prepared by the Classification Division

1997 Second Quarter Report

Technical Notes

- The official capacity or custody level designation for each facility can change for a number of reasons, e.g. expansion of facility beds, decrease of facility beds due to fire, or changes in contracts with vendors. In all tables the capacity and custody level reflects the status at the end of the reporting period. The design capacity is reported for correctional facilities in Tables 1, 2, 3, and 4.
- On November, 15, 1996, one hundred new modular beds were added to MCI Concord, increasing its
 design capacity to 614. Ninety-six modular beds were also added to MCI Norfolk, increasing its total
 to 1,084 beds. Pondville Correctional Center was reclassified from Custody Level 3/2 to Custody
 Level 3.
- Two hundred forty-three new modular beds were added to Middlesex (Billerica) House of Correction during November 15, 1996, increasing its total to 1,035 beds.
- Due to changes in the Massachusetts General Law, DOC consolidated one unit at the Bridgewater Treatment Center and back filled with general population inmates. These design capacity beds were placed on-line November 8, 1996 and first appeared on the November 12, 1996 daily count sheet.
- Due to the Department's policy changes, the security level of MCI-Shirley (Min) was changed from Security Level 3/2 to Security Level 3 during the first quarter of 1996.
- On January 31, 1995, the design capacity for the Departmental Segregation Units (DSU) at MCI-Cedar
 Junction and MCI-Norfolk were taken off the count sheets. The segregation units are considered
 support beds and are not shown on the daily count sheet as design capacity. This resulted in the
 elimination of 91 beds (60 at Cedar Junction and 31 at Norfolk) from the previous quarterly reports.
- In previous quarterly reports, the population figures for PPREP were included with the Park Drive population. The PPREP population is reported independently starting with the first quarter of 1995.
- Where relevant, the population figures for all facilities include both male and female inmates except as shown at Lancaster.
- State inmates housed in the Hampshire county contract program are included in the county population tables, as are all other state inmates housed in county facilities.
- Longwood Treatment Center is a specialized DOC facility for individuals incarcerated for O.U.I. Because the inmates are primarily county sentenced inmates, the inmate count and bed capacity are also included in Tables 3 and 4.
- The Massachusetts Boot Camp opened on August 17, 1992, and is located at the Bridgewater Correctional complex in Bridgewater, Massachusetts. Prior to 1993, the Boot Camp was listed as a DOC minimum security facility. In August, 1995, 128 beds were designated to security level 4 (state inmates) and 128 beds for county inmates. In October, 1995, these beds were added to security level 4 design capacity, and 128 beds were added to House of Correction tables.
- Norfolk County includes Braintree, Dedham, and Norfolk Contract. Middlesex County includes both Billerica and Cambridge. Berkshire County includes the pre-release facility. Essex County includes Middleton and Lawrence Correctional Alternative Center. Bristol County includes Dartmouth, Eastern Massachusetts Alternative Center and Pre-Release
- Nashua Street inmates housed at other facilities are reported in the counts for the facilities in which
 they are in custody.
- During June, 1993, Plymouth House of Correction added 833 beds increasing its total to 1,140 beds.

 On April 18, 1995, new security level changes were established according to 103 DOC 101 <u>Correctional Institutions/Custody Levels</u> policy which states:

Custody Levels:

- Level One. The least restrictive in the department and is reserved only for those inmates who are at the end of their sentence and have been identified as posing little to no threat to the community. Supervision is minimal and indirect.
- Level Two. A custody level in which both design/construction as well as inmate classification reflect the goal of restoring to the inmate maximum responsibility and control of their own behavior and actions prior to their release. Direct supervision of these inmates is not required, but intermittent observation may be appropriate under certain conditions. Inmates within this level may be permitted to access the community unescorted to participate in programming to include, but not limited to, work release, educational release, etc.
- Level Three. A custody level in which both the design/construction as well as inmate classification reflect the goal of returning to the inmate a greater sense of personal responsibility and autonomy while still providing for supervision and monitoring of behavior and activity. Inmates within this security level are not considered a serious risk to the safety of staff, inmates or to the public. Program participation is mandated and geared toward their potential reintegration into the community. Access to the community is limited and under constant direct staff supervision.
- Level Four. A custody level in which both the design/construction as well as inmate classification reflect the goal of restoring to the inmate some degree of responsibility and control of their own behavior and actions, while still insuring the safety of staff and inmates. Design/construction is generally characterized by high security parameters and limited use of internal physical barriers. Inmates at this level have demonstrated the ability to abide by rules and regulations and require intermittent supervision. However, behavior in the community, i.e., criminal sentence and/or the presence of serious outstanding legal matters indicate the need for some control and for segregation from the community. Job and program opportunities exist for all inmates within the perimeter of the facility.
- Level Five. A custody level in which design/construction as well as inmate classification reflect the need to provide maximum external and internal control and supervision of inmates. Inmates accorded to this status may present an escape risk or pose a threat to other inmates, staff, or the orderly running of the institution, however, at a lesser degree than those at level 6. Supervision remains constant and direct. Through an inmates willingness to comply with institutional rules and regulations, increased job and program opportunities exist.
- Level Six. A custody level in which both design/construction as well as inmate classification reflect the need to provide maximum external and internal control and supervision of inmates primarily through the use of high security parameters and extensive use of internal physical barriers and check points. Inmates accorded this status present serious escape risks or pose serious threats to themselves, to other inmates, to staff, or the orderly running of the institution. Supervision of inmates is direct and constant. Inmates are confined to their cells at all times, except when they are removed for authorized activities. Inmates within their status, when removed from their cell, are typically under escort and in restraints.

Table 1 provides the DOC figures for the second quarter of 1997. As this table indicates, the DOC population (excluding Bridgewater SH, SDPTC, AC, Longwood TC, Mass. Boot Camp) decreased by 10 inmates during the second quarter. At the end of the quarter, the DOC operated with 10,030 inmates in the system, and the average daily population was 10,032 with a design capacity of 6,806. Thus, the DOC operated at 147 percent of design capacity.

Table 2 provides the DOC figures for the previous twelve months - i.e., for the period April 1, 1996 to March 31, 1997. These figures indicate that the DOC population increased by 467, or 5 percent, over this twelve month period (excluding Bridgewater SH, SDPTC, AC, Longwood TC, Mass. Boot Camp), from 9,566 in April, 1996 to 10,033 in March, 1997.

Table 3 presents the county figures for the second quarter of 1997. The county population decreased by 155 inmates, or minus 1 percent during this quarter. At the end of the quarter, the county system operated with 12,281 inmates, and the average daily population was 12,332 in facilities with a total design capacity of 8,356. Thus, the county system operated at 148 percent of design capacity.

Population in County Correctional Facilities, April 1, 1997 to June 30, 1997

Figure 1.
DOC Sentenced Population, Second Quarter of 1996 and 1997

The graph above compares the DOC sentenced population in 1996 to that in 1997. In April, 1997 the DOC population increased by 414 inmates (4%) from the same month in 1996; in May, the population increased by 416 inmates (4%); and in June, an increased of 309 inmates or 3 percent.

Figure 2. HOC Population, Second Quarter of 1996 and 1997

The graph above compares the HOC population in 1996 to that in 1997. In April, 1997 the HOC population increased by 540 inmates (5%) from the same month of 1996; in May, the population increased by 553 inmates (5%); and in June, an increased of 508 inmates or 4 percent.

Note: Data from figures 1 and 2 were taken from the end of the month count sheets compiled by the Classification Division.

Table 5 provides statistics on court commitments by gender to the DOC in 1996 and 1997. Overall, there has been a decrease of 89 commitments, or minus 6 percent for 1997 in comparison with the number of commitments in 1996, from 1,591 to 1,502. Male commitments for 1997 decreased by 21, or minus 2 percent from 1996. Female commitments during 1997 decreased by 68, or minus 12 percent compared to the number of commitments during the same period in 1996.

Court Commitments by Gender						
	1996	1997	Diff.			
<u>Males</u>						
First Quarter	528	545	3%			
Second Quarter	512	474	-7%			
Sub-total	1,040	1,019	-2%			
<u>Females</u>						
First Quarter	260	251	-3%			
Second Quarter	291	232	-20%			
Sub-total	551	483	-12%			
Total	1,591	1,502	-6%			

Figure 3 provides a graphical representation of the number of court commitments by gender to the DOC during the second quarter of 1996 and the second quarter of 1997.
