Introduction

This report presents a statistical profile of the 5,636 individuals in the custody of the Massachusetts Department of Correction (DOC) on January 1, 1987. The report presents information on the nature of the present offense, personal background characteristics, criminal history, and furlough program participation of these individuals. The information is presented for the DOC population as a whole as well as for each separate DOC facility.

Sample. The inmate sample presented in this report is a custody sample of individuals incarcerated as a result of a criminal commitment. The 5,636 cases in the sample include all individuals in the custody of the DOC, except those at Bridgewater State Hospital, those on a detention status, or individuals received as civil commitments. Thus, the report excludes: those individuals at the Bridgewater State Hospital (N=436), the Treatment Center for Sexually Dangerous Persons and Addiction Center (N=350); DOC inmates in custody at a federal prison, out of state prison, or county facility in Massachusetts on January 1, 1987 (N=163); individuals who were sentenced to the DOC and were confined in a county facility awaiting transfer to the DOC on January 1, 1987 (N=1); individuals in the custody of the DOC on a detention status (such as women in the Awaiting Trial Unit (ATU) at MCI-Framingham (N=73), Charles Street Jail inmates housed at MCI-Concord on MCI-Norfolk (N=68), or individuals on 15 day Parole Board detainers); and individuals received at MCI-Framingham as civil commitments. This report includes information on county, federal and out of state inmates in the custody of the DOC on January 1, 1987 (N=221).

Facilities. This report contains information on Individuals at all DOC facilities including: two maximum security facilities, MCI-Cedar Junction and Lemuel Shattuck (a secure medical facility); five medium security facilities, MCI-Concord, MCI-Framingham, MCI-Norfolk, NCCI, and SECC; three minimum security facilities, Bay State C.C., Medfield Prison Project, and N.C.C.; six minimum/pre-release facilities, MCI-Plymouth, MCI-Warwick, MCI-Shirley, MCI-Lancaster, Longwood Treatment Center, and Hodder House; four state pre-release facilities, Park Drive PRC, Norfolk PRC, South Middlesex PRC, and Boston State PRC; and eight contract pre-release facilities, McGrath House, Brooke House, Coolidge House, Coolidge II, Temporary Housing Program, Charlotte House, Hillside PRC, and Meridian House.

Information on individuals at the five Massachusetts Halfway Houses, Inc. facilities are presented together (McGrath House, Brooke House, Coolidge House, Coolidge II, and Temporary Housing Program). On January 1, 1987 there was only one individual in Meridian House, a pre-release facility with a drug rehabilitation component. In order to maintain anonymity, information about this individual is included with the statistics on the total population but is not otherwise presented in the report. Hodder House is part of MCI-Framingham, but information is presented separately for those women at Hodder House and those women in other sections of MCI-Framingham. Individuals at Lemuel Shattuck on January 1, 1987 are presented as being at that facility, rather than at the sending facility.

Table Interpretation. In reading the tables in this report, the reader should note the following: 1) the population on January 1, 1987 is divided according to the facility in which the individual was located; 2) the top number in each cell represents the number of individuals who fall into the corresponding category in the table; and 3) the bottom number in each cell represents the percentage in a particular category to the total number of individuals in that facility (column percent). For example, upon referring to the table on pages 26 and 27, present offense is presented, and the following types of information can be obtained: 1) there were 5,636 individuals in the DOC; 2) of these, 828 (15 percent) had a sex offense as their primary offense; 3) there were 678 individuals at MCI-Cedar Junction; and 4) of these, 71 (10 percent) had a sex offense as their primary offense. Cases with missing information are included in the percentages contained in the statistical tables but are excluded in the narrative description of the population.

These statistical tables were derived with the use of the DOC data base at the Criminal History Systems Board (CHSB) and were produced on the Regent's Computer Network (RCN).

Residents of Massachusetts Correctional Institutions, January 1, 1982 to January 1, 1987: A Trend Analysis

During the five year period between January 1, 1982 and January 1, 1987 the population in the DOC increased by 1,946 or 53 percent, from 3,690 in 1982 to 5,636 in 1987. During the past year the population increased by 246 or 4 percent, from 5,390 to 5,636. In this section some of the characteristics of the population in DOC facilities over this period are discussed. Changes in the inmate population are also noted in this trend analysis. Detailed information is presented in the table on pages 6 through 8.

Sex. Currently the DOC population is 94 percent male and 6 percent female. This is similar to the beginning of the period when the population was 95 percent male and 5 percent female.

Race. Currently the population in the DOC is 60 percent non-hispanic and white, 28 percent non-hispanic and black, and 12 percent hispanics of all races. This represents a decrease in the proportion of non-hispanic whites and blacks and an increase in the proportion of hispanics of all races over the beginning of the period when the population was 63 percent non-hispanic white, 31 percent non-hispanic black and 6 percent hispanic.

Age. The age distribution of the population has shifted upwards during the last five years. Currently 49 percent of the population is under 30 years old and 51 percent are 30 years or older. In contrast, at the beginning of the period 60 percent of the population were under 30 years of age and 40 percent were 30 years or older.

Offense. Currently 54 percent of the population is incarcerated for an offense against the person, 15 percent for a sex offense, 15 percent for a property offense, 11 percent for a drug offense and 5 percent for some other offense. This represents a decrease in the proportion of person offenders and an increase in the proportion of drug, sex, property and other offenders over the beginning of the period. On January 1, 1982 the population was 65 percent person offenders, 13 percent sex offenders, 14

percent property offenders, 6 percent drug offenders, and 3 percent other offenders.

Concord, 5 percent to Framingham, and 4 percent to other jurisdictions. This represents an increase in the proportion of Cedar Junction sentences and a decrease in the proportion of Concord sentences.

Sentence. Currently 27 percent of the population are serving indeterminate sentences and 73 percent are serving determinate sentences of which 16 percent have a minimum of less than 5 years, 26 percent have a minimum of 5 to 9 years, 16 percent have a minimum of 10 to 19 years, 2 percent have a minimum of 20 years or more and 13 percent have a minimum term of life. Compared with the beginning of the period a smaller proportion of inmates were serving indeterminate sentences (27 percent vs. 30 percent) and a larger proportion were serving sentences with a minimum term of less than 5 years (16 percent vs. 11 percent).

<u>Furloughs.</u> Currently 28 percent of the population have participated in the furlough program. This is an increase from 1982 when 21 percent of the population had been in the furlough program.

Criminal History. Currently 86 percent of the population have a criminal history including one or more charges for an offense against the person, 24 percent for sex offenses, 80 percent for property offenses, 46 percent for drug offenses, 26 percent for alcohol offenses, and 13 percent for escape offenses. The pattern of criminal history is generally similar to that found at the beginning of the period.

Currently 22 percent of the population have a history of one or more prior commitments as a juvenile, 44 percent of one or more prior county incarcerations, 24 percent of one or more prior state or federal incarcerations and 53 percent for any prior adult incarcerations. These proportions are generally lower than those found at the beginning of the period.
